SALT REGAL Maintains a clear, healthy condition of the skin, and by purifying the system removes all humours from the body, and destroys the sources of bad complexions.

UNIVERSITY OF ABERDEEN.

I find SALT REGAL to be a very carefully prepared saline. Its special feature is that it contains a small proportion of a very useful antiseptic, the value of which in such a preparation must be very great. Its use in warm climates will be found to be most valuable, both on account of its gentle aperient qualities, and of its antiseptic property.

HENRY THOMAS JONES, F.I.C.,
Asst. Professor of Chemistry.

SALT REGAL is sold in bottles (hermetically sealed), price 2s 9d. It cannot be imitated, and stands alone. Be careful to observe Salt Regal is a delicate white powder, but it turns the water to a beautiful Rose Pink; unless it does this it is not genuine, and its sale should be at once reported to the Secretary, Salt Regal Co.

A Real Royal Patent, not a Patent Medicine. Patent Rights Protected in every civilised country. All London and Provincial Wholesale Houses regularly stock it.

SALT REGAL WORKS, LONDON AND LIVERPOOL.

If Salt Regal is not procurable from the nearest Chemist, a Postal Order for 2s 9d, addressed to the Manager Salt Regal Works, Liverpool, will bring a Bottle by return of Post. 3533

BRAY.

TENDERS ARE INVITED FOR LETTING OF THE BRAY TOWNSHIP COMMISSIONERS' LADIES' BATHING PLACE On BRAY ESPLANADE, For the Season of 1889.

The Bathing Place contains 19 Permanent Concrete Boxes and 28 Wooden Boxes—in all 47 Boxes.

Tenders are invited either for the whole Bathing Place, with all the Boxes, or for two portions thereof separately, and for that purpose the Bathing Place will, if necessary, be partitioned into two separate divisions, viz—the North and South Divisions.

The North will contain 10 permanent concrete and 15 wooden boxes; the South will contain 9 permanent concrete and 13 wooden boxes.

The Commissioners will supply a small looking-glass for each box, together with a certain number of bathing dresses, sheets, and towels, and the tenant will have to covenant for the due preservation and return at the end of season in good repair of all such glasses, dresses, sheets, and towels. The Commissioners will fix a tariff of charges for sea bathing, which can be seen on application to the Town Clerk, at the Town Hall; and the person or persons whose Tender or Tenders may be selected shall find two sufficient sureties for the payment of the rent and maintenance of the baths and everything handed over with them. The baths will be ready to be handed over to the tenant or tenants on the 1st day of June next, and the tenancy will terminate on the 1st day of November next.

The Tenders must be delivered in writing on or before 11 30 o'clock a m on MONDAY, 27th day of May instant, addressed to the Town Clerk, Town Hall, Bray.

The Commissioners invite Tenders in either or both ways—that is to say, for the entire or for either division.

And the Commissioners do not bind themselves to accept the highest Tender, but reserve to themselves the right to accept any or none as they may think fit.

The Baths can be seen and quantity of dresses, sheets, towels, etc, explained on any day during this week at any time by calling at the Town Hall.

The successful tenant or tenants will have to sign an agreement, together with sureties' bonds, both of which are to be prepared by the Township Solicitor.

Rent to be paid monthly in advance.

Dated this 20th May, 1889.

Town Hall, Bray.

3697 P. MacDONNELL, Town Clerk.

... land Railway is carried to London via Birmingham and Wigston Junction.

The Great Western Railway has secured a shortened route from Wales to London, via the Severn Tunnel. By using the 43½ miles of railway, upon which this stock is thus secured, instead of the Birmingham and Wigston Junction route, the Midland Company would save from Swansea to London 35 miles, and have a route for its Welsh traffic from Swansea, only 21 miles in excess of the Severn Tunnel route, and for its other South Wales coal and iron traffic of a few miles only in excess of such route.

The 43½ miles of railway will moreover be in direct touch and communication with the London and North Western Railway system by means of the station at Roade.

The interest will become payable on the 1st January and the 1st July in each year.

The following are the present prices of some leading debenture stocks—

South Eastern 5 per Cent Perpetual Debenture Stock	160	162
Great Western 5 per Cent Debenture Stock	162	164
Metropolitan District 6 per Cent Debenture Stock	171	173
Great Western 4½ per Cent Debenture Stock	148	150
London and North Western 4 per Cent Debenture Stock	133	135
Midland 4 per Cent Debenture Stock	133	135
North Eastern 4 per Cent Debenture Stock	133	135
London, Chatham and Dover 4½ per Cent Debenture Stock	138	140
North British 4 per Cent Debenture Stock	129	131
Caledonian 4 per Cent Debenture Stock	130	132

... coming the national drink in the United States.

During the past year, in consequence of the rapid growth of the business, a modern brew house has been erected in addition to the existing plant, from which it is completely isolated by a distance of about 50 feet, thus forming a building separate and distinct, and separate independently of the old Brewery. This new brew house will be in operation in the present month, equipped with every modern improvement, including ice machines and ice house, so that the brewing may be carried on at the minimum of cost with the highest efficiency.

The capacity of the new brewery will be about 125,000 barrels per annum, which will increase the present capacity more than threefold, and a very large increase of profit must therefore arise from the great extension of the business without the expenditure of any further capital.

Taking however only the actual average net profit made for the two years ending March, 1889, viz, £19,500 per annum, the following is the result:—

Profit		£19,500
Debenture interest at 6 per cent on £50,000	£3,000	
Dividend on Preference Shares at 8 per cent on £70,000	5,600	
		8,600
		£10,900

Equal to a dividend of over 13 per cent on the Ordinary Shares after providing a yearly sum of £1,800 for the estimated expenses of management, and it is anticipated that within two or three years at most by the extension of the business and with the increased facilities and capacity of the new brewery the profits will be more than doubled, and that the dividend on the Ordinary Shares will not be less than 25 per cent.

American lager beer breweries possess great advantages over others, as lager beer is very suitable to the climate, and there is the special advantage applying to Baltimore that it has a very large German population, with whom lager beer is, as is well known, the favourite drink.

As the Company requires the whole of the stock in trade and book debts of the business free of liabilities no working capital is necessary, but the directors have by way of precaution made provision in the capital for a sum of £10,000 in case it should be required.

The successful issue in London of the various American Brewery Companies, on the boards of most of which are well known and experienced English brewers, and the prices at which these securities are quoted on the Stock Exchange, show the high estimation in which American brewery investments are held.

The foregoing figures as to output and profits are derived from statements furnished by the Vendor as to the correctness of which the Directors have every confidence, but it is stipulated in the contract of purchase that the purchase shall not be completed and no money will be paid until the auditors of the Company (Messrs J. R. Ellerman and Co., of Moorgate street, London), who have had larger experience in brewery accounts are audits, have reported thereon to the satisfaction of the directors. Mr Ellerman is now on his way to Baltimore for this purpose.

The price as fixed by the Vendor to be paid for the entire brewery and new brewhouse and extension, and all premises and buildings connected therewith, and including machinery, plant, horses, wagons, stock-in-trade, book debts, and good-will, is £130,000, payable as to £50,000 in 6 per cent Mortgage Debentures of the Company, £25,000 in Preference Shares, £15,000 in Ordinary Shares of the Company, and the balance in cash. The Company does not take over any liabilities.

The brewery premises are held under lease expiring in the year 1900, at a ground rent of £250 per annum, with the right at the expiration of the lease to purchase the freehold for 29,000 dols (£4,125).

ULCERATED SORE THROAT.
28 High street, Lurgan,
13th May, 1889.

Having heard of the efficacy of your appliances, I was induced in November last to try a Throat Protector for my little daughter, aged 9 years, which she has worn ever since. Her general health had gone down in consequence of being troubled with her throat, but since wearing your appliance she has been quite restored, and is now as strong and well as ever she was.

RHEUMATISM AND INDIGESTION.
Newtownards, county Down,
4th October, 1888.

I am happy to be in a position to bear testimony to the very beneficial effect of your treatment. On your advice I purchased one of your strongest belts. A few years ago I bought one, and it cured me of rheumatism and indigestion. Being cured I gave it up, but, having contracted a severe cold lately, very acute pains in the body and right leg set in, so that I returned to my old remedy again, the result being freedom from pain and bodily health greatly improved.
